OBJECTIVE

Seeking internship opportunity in software development for Summer 2019 where teamwork, diversification of talent, and Agile principles of customer satisfaction and flexibility are assets.

EDUCATION

The Ohio State University, Columbus, Ohio

GPA: n/a

B.S. Computer Science & Engineering, May 2022

Member of the University Honors Program

William Mason High School

GPA (weighted): 5.02

Graduated with Honors in the Class of 2018

Dual Enrollment with Sinclair Community College through College Credit Plus

EXPERIENCE

Student Intern at AssureX Health (2016)

- Learned about the software development cycle (Agile) related to tasks in BA, UX, DevOps, and QA
- Created an error log parser that pulled and analyzed data from website crash reports
- Generated crash statistics by incorporating compatibility with Excel into the program for data analysis

ACADEMIC ENGINEERING PROJECTS

Districts Project (Independent)

- Developed computer app in Java capable of organizing thousands of employees as a two-week project
- Designed robust and lightweight user interface capable of searching, filtering, modifying data, etc.

Calendar Application (Team of 4)

- Created a Java application to organize club events and recommend more with a machine learning system
- Incorporated a Google Sheets API for ease of importing and exporting information

QUALIFICATIONS

- 4 years of experience with object oriented programming, machine learning, recursion and I/O
- Experience in front and back-end development as well as the software design process Agile
- Software: C++, Java, Visual Basic, MATLAB, HTML and CSS, Microsoft Word and Excel

ACTIVITIES AND INTERESTS

Webmaster of Animal Shelter Association (August 2017 to May 2018)

- Developed a website for our activities using HTML and CSS (masonasa.info)
- Organized meetings and planned activities, making over 3000 treats/toys in the school year
- Managed 150 members and worked with 9 shelters in the Cincinnati-Kentucky area

President of Mason High School's Mock Trial Team (August 2015 - May 2018)

- Organized 2 meetings/week and prepared guides/presentations for 4 teams comprised of 32 members
- Applied my experience to help all members of the team, no matter what position they took
